QUOTES

Head Coach Rick Insell

Opening Statement

They came in and had good game plan. They put the ball in the hole and had some good shooters. I think they are going to do very well in the OVC. We also played Tennessee Tech, and I think they will both be in the four or five in their conference. Carrie Daniels is doing a good job with that team, they are going to get better. They've played a tough schedule with UAB, Vanderbilt and Louisville. They have played a tough schedule.

On the play of Janay Brinkely

She had a great game, scored eight points including two three-pointers. She is a very talented young lady. That is one of the things I have been trying to get her to do, step up and be more of a player and quit being so mechanical. She really gave us a lift when she came in She had a lot of deflections on the point of our press and not only that she came there late and created some steals. We needed that.

On the run late in the first half

We need to go on more of those runs. We haven't seen much of that lately and we need that. We've played a tough schedule and right now our kids are tired. We've got a big Xavier game on Thursday night and our kids have to come in tomorrow and get some things accomplished, but we can't come in and practice like we want to practice right now. And then we have to do the same thing on Friday and Saturday before we travel to Kentucky. We've got our schedule sort of bunched together right here and we are going to have to punch thru it.

On a strong start in the second half

We did that at South Dakota State, we had ten stops in a row, but we just couldn't convert them to points. The effort is there. I can't question our team's effort. We had 26 turnovers today, but the effort is there. They are diving for the ball, taking charges. We are just not getting some little things done that we need to work on.

Senior Guard Kortni Jones

On the crowd of 10,107

I have never heard that much noise in my life. Those kids were screaming so loud they actually had me more nervous than our regular crowd. It was good; I liked it.

On the play of Janay Brinkley

She gave us a really good lift. We have been putting a lot of emphasis on our guards knocking down shots, and she came in and hit two big 3-pointers for us. It made us feed off of her energy. When she comes in the game she has fresh legs, more than those of us already in the game. It gives us some excitement and we are excited for her as well. It gives confidence to her, which can only make our team better going into conference play.

Junior Forward Ebony Rowe

On the 11 a.m. tipoff

It felt a little weird. I felt like I should be going to class instead of playing a basketball game. It was good for us because later in the season we are going to have games like that and this will help us get mentally tough for those.

On the team's play inside the paint

It wasn't as good as I would have liked, and I don't think Ice (Icelyn Elie) was happy either. I credit Austin Peay. They knew that was our game plan going in and they started bringing in some players off the guards on the perimeter, just trying to double-team and slap at the ball, be real physical, and that took us out of our game plan a little bit. But that was good for us. We can only learn from that and get better.
